

PROFILE

Senior Cloud & Data Platform Engineer with over **11 years experience** building and operating cloud-native infrastructure and data platforms. Strong background in infrastructure-as-code, containerisation and orchestration, CI/CD, and monitoring. Proven track record in cost optimisation, cloud migrations, and delivering reliable, scalable data services to BI and product teams. Get a deeper view of my experience, and a bit more about me at www.lloydarmstrong.dev.

EMPLOYMENT HISTORY

Senior Data Platform Engineer, Metro Markets GmbH, Düsseldorf

NOV 2023 – PRESENT

- Designed, built, and optimized backend data services and pipelines with **MySQL**, **Debezium**, **Apache Flink**, and **Apache Kafka**, enabling real-time analytics for BI teams.
- Architected and maintained **Postgres**, **ClickHouse**, **BigQuery**, and **Apache Kudu/Impala** clusters, ensuring **low-latency queries and high reliability**.
- Improved **system scalability and performance**, enabling multi-terabyte datasets to be processed efficiently.
- Managed feasibility and budgeting of cloud infrastructure costs.

Cloud DevOps Engineer, Metro Markets GmbH, Düsseldorf

NOV 2022 – NOV 2023

- Re-architected SaaS services on Google Cloud Platform, reducing costs by **38%** while maintaining high availability.
- Refactored legacy Terraform & implemented customized modules
- Rightsized and refined resource use across multiple projects by using historical usage statistics collected using **Grafana** and **Prometheus** observability tools
- Implemented Helm deployments and introduce the use of **Argo CD** for Kubernetes, as well as streamlined GitLab CI/CD pipelines to reduce operational overhead

DevOps Automation Engineer, trivago, Düsseldorf

JUN 2020 – OCT 2022

- Lead embedded DevOps Engineer for 3 teams involved in Business Analytics and TV Advertising.
- Using the Hashicorp tech stack, migrated the entire Trivago Business Analytics platform from monolithic on-premise servers to a highly- available, local cloud, using Nomad, Vault, Consul, Levant and Vagrant.
- Reduced time to release by optimizing Jenkins CI/CD pipelines.

DevOps Engineer, Connect Mobile Communications, Johannesburg

SEPT 2018 – APR 2020

Cloud-Migration experience. Built a Big Data platform from scratch using Elasticsearch and Logstash to process millions of data points daily. Implemented Monitoring and alerting infrastructure to optimize uptime.

Junior DevOps Engineer, Panoptix, Johannesburg

JAN 2015 – JAN 2018

Hands-on startup role: Assembling, Installing and monitoring advanced network analysis devices in secure banking environments. Contributed to building a custom application with ELK Stack and Saltstack Experience.

SKILLS

Google Cloud	Terraform
Kubernetes, Helm, ArgoCD	Docker
Apache Kafka	Apache Flink
MySQL	Apache Kudu & Impala
Typescript	Next.js
Dagster	Airbyte

HIGHER EDUCATION

B. Mus (Honours), University of Chichester

2013 – 2016

HOBBIES

- +++ Building and tinkering.
- +++ Anything that flies.
- +++ Making music
- +++ Sports. All types.

CERTIFICATIONS

AWS Cloud Practitioner	Google Cloud Architect Professional
